Skin Like Porcelain

Friday, 11 January 2013 / beauty

Porcelain The Face Spa's new Revive Makeup Cleanser strikes the right balance by doing its job of removing stubborn makeup (yes, even that ultra-waterproof eyeliner that usually refuses to budge) from our skin, while being ultra-gentle and hydrating the skin at the same time. Use it for the first step of your skin cleansing process, as a pre-cleanser to remove impurities from the skin. We also like that with its orchid extracts, we smell flowers as we're dabbing it onto our skin.

They've also added the Deep Cleanser to their Balance range, catered for acne-prone skin. While most cleansers for acne are harsh and end up dehydrating the skin, the Balance Deep Cleanser gently but deeply cleanses sensitive skin, while its key ingredients help with reducing skin inflammation. As they say, balance is key.

The Revive Makeup Cleanser retails at \$15 for 10ml and \$45 for 100ml, while the Balance Deep Cleanser retails at \$15 for 10ml and \$55 for 130ml. Both are available exclusively at Porcelain, The Face Spa, 15 Cantonment Road. Call 6227 9692 for more information.
